

CaliberSchools
Education Reimagined

Dear 4th Grade Families,

6/10/19

Welcome to the final week of school! Included here is the Summer Bridge workbook we have assigned our students to keep them academically engaged during the summer months. The activities in the workbook review 4th grade reading, writing, and math standards, and introduce students to beginning-of-year 5th grade standards. We feel that the activities included are high-quality and are an effective bridge between the 4th grade and 5th grade years.

The book is divided into three sections. Each section asks students to complete two pages per day, for 20 days. Therefore, the total number of days with assigned work is 60. Daily work should only take 15 minutes, however, so students may want to work ahead and complete multiple days in one sitting.

Your child should turn in the completed workbook to his or her 5th grade teacher on the first day of school next year: **Monday, August 26**. All students are required to complete this summer work.

As always, please continue to ensure that your child reads consistently throughout the summer. A list of recommended books is included on pages *ix-x* of the workbook.

Thank you for your constant support! Happy summer!

Sincerely,

Ms. Rogado and Ms. Liz

P.S.- Behind this letter we have included the workbook's Answer Key...for your eyes only! :)
